Syed Arsalan Ali

Sr. UI Engineer | Aspiring UI Lead | Expert in Front-End Architecture, Responsive Design, & Agile Development
Sharjah Emirate, United Arab Emirates

Summary

As a Senior Product UI Engineer, I specialize in transforming design concepts into high-quality, user-centric interfaces. With expertise in Angular Material UI, Vuetify, and Bootstrap, I focus on developing scalable, efficient front-end architectures optimized for performance and responsiveness.

Core Strengths:

Technical Expertise: Skilled in front-end development, ensuring technical feasibility and optimization of UI/UX designs for seamless performance.

Leadership & Collaboration: Collaborate closely with cross-functional teams to align design and development with design systems. Mentor junior developers, fostering a culture of best practices and code quality.

Adaptability & Innovation: Thrive in fast-paced environments, staying current with emerging technologies and continuously refining workflows to drive efficiency and innovation.

Experience

Government of Sharjah - Sharjah Digital Department

Senior UI Engineer

March 2024 - Present (1 year 6 months)

United Arab Emirates

- o Convert Figma wireframes to responsive, production-ready code (Angular Material UI, Bootstrap, HTML5, CSS3, Sass, JavaScript).
